```

## CLUSPLOT( Pharma\_2 )

These two components explain 61.23 % of the point variability.

#b.Interpret the clusters with respect to the numerical variables used in forming the clusters. By looking at the mean values of all quantitative variables in each cluster.

Cluster 1 - JNJ, MRK, PFE, GSK ~ Cluster 1 has highest Market\_cap,ROA,ROE,Asset\_Turnover and lowest is Beta,PE Ratio.

Cluster 2 - AHM, WPI, AVE ~ Cluster 2 has highest Rev\_Growth and lowest PE\_Ratio, Asset\_Turnover

Cluster 3 - CHTT,ELN,MRX,IVX ~ Cluster 3 has highest Beta, Leverage and lowest Market\_Cap, ROE, ROA, Leverage, Rev\_Growth, Net\_Profit\_Margin.

Cluster 4 - BAY,PHA,AGN ~ Cluster 4 has highest PE\_Ratio and lowest Leverage, Asset\_Turnover.

Cluster 5 - AZN,ABT,NVS,BMY,WYE,SGP,LLY ~ Cluster 5 has highest Net\_Profit\_Margin and lowest leverage,Beta.

# c.s there a pattern in the clusters with respect to the numerical variables (10 to 12)? (those not used in forming the clusters)

With respect to the Media recommendation variable, there is a pattern in the clusters.

Cluster 1 with highest Market\_Cap, highest ROE, highest ROA, highest Asset\_Turnover has equal Hold and Moderate Buy Recommendation.

Cluster 2 with lowest PE Ratio and lowest Asset Turnover has Hold Recommendation.

Cluster-3 with highest Beta, highest Leverage has mostly Moderate Buy Recommendation.

Cluster 4 with highest PE\_Ratio has Hold Recommendation.

Cluster 5 with highest Net Profit Margin has mostly Hold Recommendation.

In terms of variables, I have seen a pattern among the clusters (10 to 12)

Clusters 1,3 has mostly Moderate Buy Recommendation

Clusters 1,2,4,5 has Hold Recommendation

# d.Provide an appropriate name for each cluster using any or all of the variables in the dataset.

Cluster-1 - Moderate Buy (or) Hold cluster.

Cluster-2 - Low PE Ratio, Asset Turnover cluster (or) Hold cluster.

Cluster-3 - High Beta, Leverage cluster (or) Buy Cluster.

Cluster-4 - High PE Ratio cluster (or) High Hold cluster.

Cluster-5 - High Net Profit Margin cluster (or) High Hold cluster.
